SUMMARY

Experienced Frontend Developer and UI Lead with over 10 years of expertise in building scalable, high-performance web applications for renowned global brands.

EXPERIENCE

UI Lead Developer

Hayagreeva Consulting Private Limited

📅 05/2022 - 04/2025 📍 Mumbai, India

Largest implementation partner for Adobe and OpenText, serving leading brands across APAC and AMEA regions.

- Enhanced scalability by leading frontend development for {6} global brand projects including LG, Audi, and H&M.
- Spearheaded the design and implementation of modular, reusable UI components using React, TypeScript, and modern frontend frameworks to accelerate development cycles.
- Championed WCAG compliance across applications, improving usability for diverse user groups and achieving top Lighthouse scores.
- Optimized complex state management solutions leveraging Redux and Context API for enhanced app performance and maintainability.
- Collaborated cross-functionally with UX/UI designers, backend engineers, and QA teams to deliver seamless end-to-end user experiences with a focus on pixel-perfect implementation.
- Established robust frontend testing strategies utilizing Jest and Vitest to ensure high code coverage and prevent regressions in CI/CD pipelines.
- Integrated analytics and monitoring tools to track user engagement and identify UI performance bottlenecks, informing iterative improvements.

Senior Front End Developer

Amagraphs

📅 05/2016 - 02/2022 📍 Delhi, India

Fast-growing startup delivering next-gen digital platforms and apps known for agile development, innovation, and rapid market adaptation.

- Developed scalable, dynamic web applications with JavaScript, React, Redux, delivering responsive, cross-browser compatible user interfaces.
- Collaborated closely with clients and designers to translate complex business requirements into clean, maintainable frontend code.
- Implemented multilingual, internationalized components to support global audiences, ensuring consistent UX across diverse locales.
- Enhanced legacy codebases by refactoring and introducing modern JavaScript patterns to improve stability and maintainability.
- Applied advanced CSS techniques including Sass, Tailwind CSS, and Material UI for efficient and consistent styling.
- Worked on Webpack, Storybook to streamline developer workflows and enhance component-driven development.
- Integrated third-party APIs and services, ensuring seamless data flow and real-time content updates in web applications.

SKILLS

React	JavaScript	Typescript		
Redux	HTML	CSS	SASS	LESS
jQuery	Bootstrap	Material UI
